ABOUT SERBIA

GENERAL DATA

- Location: Southeastern Europe, central part of the Western Balkans
- Geographic coordinates: 44 00 N and 21 00 E
- Territory: 88.499 km²
- Population: 7 million (the data for AP Kosovo and Metohia excluded)*
- Borders with: Hungary, Romania, Bulgaria, North Macedonia, Albania, Montenegro, Bosnia and Herzegovina and Croatia
- Capital city: Belgrade, circa 1.7 million inhabitants
- State organization: Parliamentary Republic
- Official language: Serbian
- National currency: Serbian Dinar RSD
- Time zone: GMT+1
- GDP (2018): €42.8 bn

FAVOURABLE BUSINESS ENVIRONMENT

- Functional infrastructure
- Low operating costs
- Fastest average Internet speed in the region
- Value Added Tax and Corporate Tax lowest in the region
- Credit ratings: Fitch: BB/stable; Moody's: Ba3/stable; S&P: BB/positive

ADVANTAGES OF INVESTING IN SERBIA

- Favorable geographic position, owing to which any shipment can reach any location in Europe within 24 hours
- Highly educated and competitive labor force
- Restructured and stable financial system
- Simple procedures for a company start-up and registration
- Simple procedures for foreign trade transactions and foreign investments
- State level incentives

FAVORABLE TAX REGIME

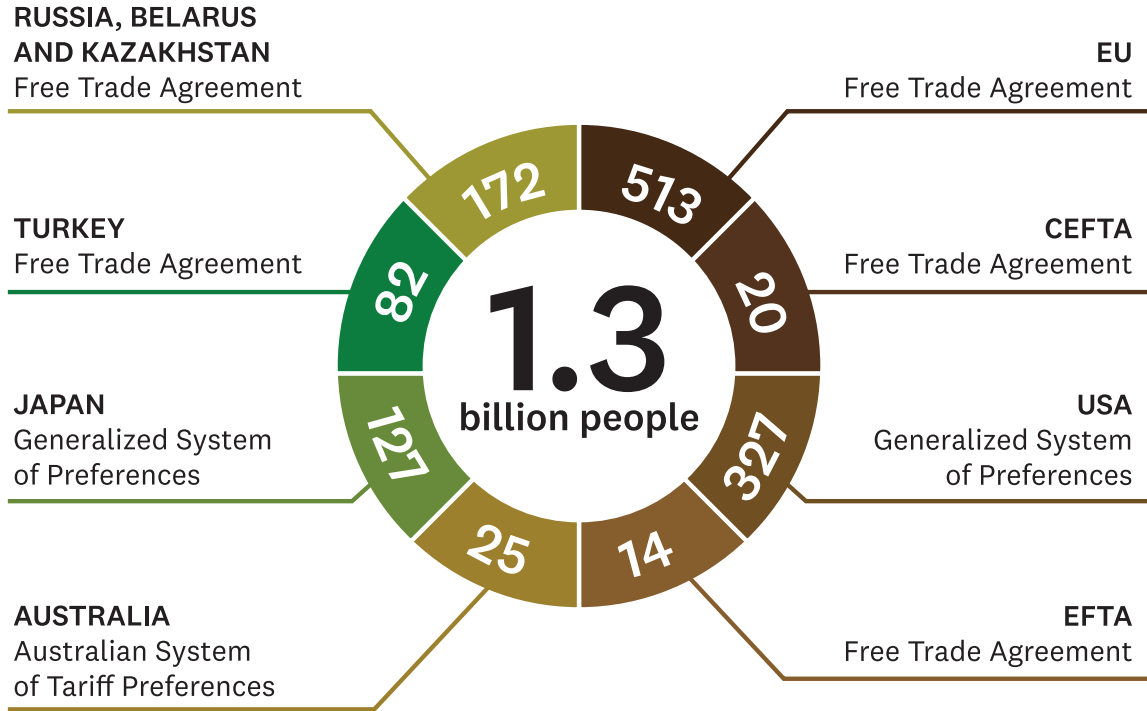

- Tax rate on personal income of 10%
- Corporate profit tax rate of 15%
- VAT rate:
General – 20%
Special – 10%

FREE TRADE AGREEMENTS

Goods made in Serbia benefit from several Free Trade Agreements and Generalized System of Preferences which provide simplified placement on markets with more than 1.3 bn people.

- Stabilisation and Association Agreement with the EU
- CEFTA Agreement

- Agreement with the EFTA members
- Agreement with the Russian Federation, Belarus and Kazakhstan
- Agreement with Turkey
- SAD (GSP)
- Japan (GSP)
- Australia (GSP)

AGROKULA

The goal of the company is to make the MBV name on the machine a synonym for quality in operation and duration, and to make such machines recognizable on the market.

In order to achieve this, we have hired leading engineers, improved the production process, utilized the experience from previous machine placements, consulted end customers and listened to their proposals and suggestions, and made machinery tailored to the needs of our farmers.

Lots of satisfied buyers of our products, both in our country and abroad, speak in favour of their quality.

AGROMERKUR

Introduction

Agromerkur as a family company was founded in 1977 as a workshop. Its specialty was the production of agricultural parts and tools. By 1989 the workshop has evolved into a company. Since 2001 we have been producing not only parts but also complete agricultural implements which have become our specialty.

Acknowledgements

The International Agricultural Fair in Novi Sad, Serbia has awarded us with 4 big and 5 small gold medals for the quality of our attachable agricultural implements. In 2014 the same fair has awarded us with another big and small gold medal, for our machines, moreover, we have received an acknowledgement for our innovations and improvements in the production of agricultural implements. Our participation and presence on the domestic and international market and exhibitions proves that we are ready for challenges.

Customer orientation

The machines of our company are produced to meet the requirements of farmers. Our products are made out of materials of the highest quality

by the recommendations of our experts. In order to prolong the lifetime of our machinery and to increase resistance against corrosion we apply a plastic coating on our products.

Quality

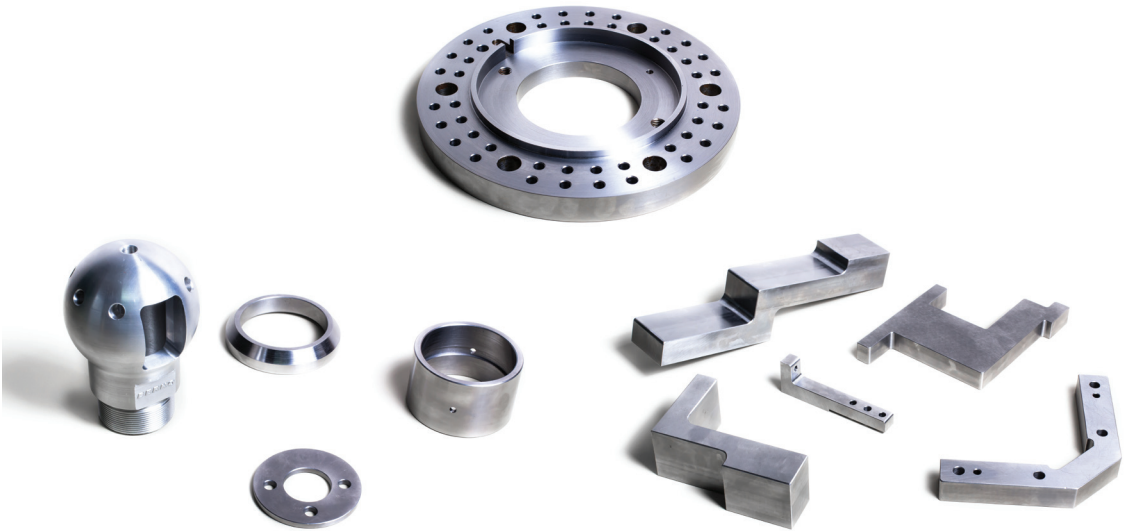

Our team of experts continuously work to improve the quality of our products. Our products come with a 2 year warranty.

Improvements

We always work on innovations and improvements in order to keep up with the latest technology of modern agriculture. By introducing new technologies into our production process and also by building a brand new production hall we aim to achieve excellent results in the production of modern agricultural machinery.

Marketing

60% of our products are exported into Croatia, Hungary, Romania, Macedonia and Russia. By cooperation with Biopom and Vojvodina Metal Cluster (VMC group) we hope for the expansion of our market and the increase of our gross sales.

BERKO

Berko Company is based in Mol (city in northern Serbia) and it has been operating successfully since 1987, on the domestic and foreign market. These 28 years of work we have gained the trust of more than a hundred domestic and foreign companies and farmers, which is first evidenced by the growth of the company.

We can offer machines, CNC machining service and spare parts for agricultural machinery.

Agricultural machinery:

- One row and two rows corn pickers
- Cambridge rollers
- Inter row cultivators
- Seedbed combi machine
- Six rows corn pickers
- Short compact disc
- Collapsible „V“ type of trailed disc harrows
- Subsoilers
- Grubers

CNC machining service:

- CNC milling
- CNC turning
- CNC bending
- CNC cutting
- Measurement equipment

Certificates: ISO 9001:2008, ISO 14001:2005

Trade regulations: CEFTA, EFTA, EU (export without custom duty)

DAL DEGAN

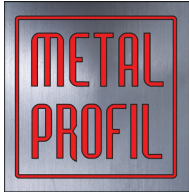

The Dal Degan family business is one of the largest manufacturers of plant protection equipment both in Serbia and in the world, with a tradition of over 145 years. Since its foundation, in 1870 in Mason Vicentino (Italy) and coming to Serbia since 2004, they have endeavored in all stages of production.

The main product range consist of two product groups, within which there are several types and models.

The first group consists of crop sprayers from 70 to 3000 liters designed to protect field crops from unwanted competitive plants, plant diseases and insects.

The second product group consists of atomizers from 200 to 2000 liters, designed to protect orchards and vineyards from plant diseases, insects and other pests.

METALPROFIL

Our company was founded in 1980 as a family workshop for engineering and metal processing.

Since 1996, we have been making gears, conical gears, sprockets, worm gears and various mechanical parts.

Besides making gears, our company deals with the production of other mechanical parts of iron, steel, aluminium and various types of castings.

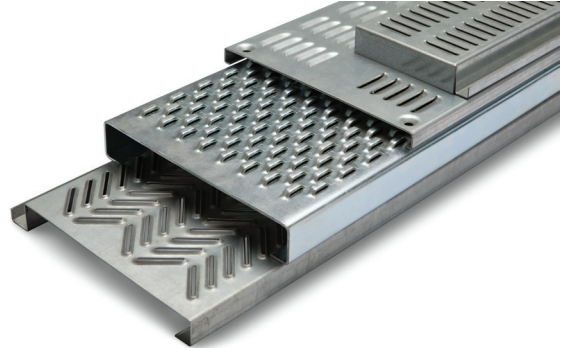

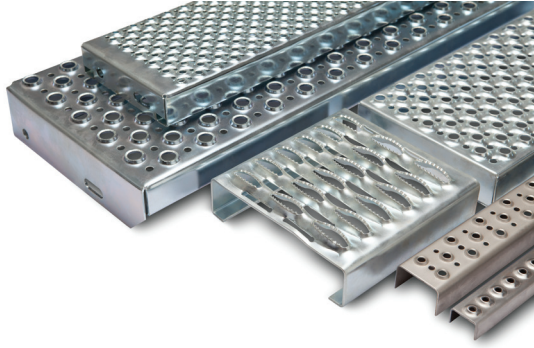

Another main activity of our company is the manufacture and repair of agricultural machinery and parts.

Our products are manufactured on CNC machines that are characterized by precision and accuracy.

Our production program:

- Production of spare parts for agricultural machinery
- Artificial fertilizer spreaders
- Cutter 3.0

- Adapters for loaders (roll bale grips, spoons of various) and
- Metal machining services

PERFOM

Perfom is a family owned company with extensive experience in perforation, punching and metal forming.

Since 1942 we have developed our company and production processes based on healthy family and human relations principles, with respect of all our employees as our associates doing the same task. We have combined the latest cad-cam technologies and the best artisan tradition.

We export to Germany, France, the Netherlands, Denmark, Sweden, Switzerland, Slovenia, Croatia, Bulgaria, Bosnia and Herzegovina, Macedonia, Montenegro.

Our skills and products are:

- Metal sheet products made by punching, perforation and metal forming (cutting, bending, rolling, welding).
- Perforated and embossed metal sheets and panels

- Perforated metal screens and parts for recycling industry, machine building and industrial maintenance
- Metal sheet parts for heat transfer solution
- Antiskid (safety) gratings and stair treads
- Perforated gratings and parts for car carriers
- Production of standard and custom made metal sheet products according to drawing
- In house new product development and tooling

We are driven by quality, responsibility and flexibility in production and cooperation.

OOO PETOLETKA

www.petoletka.com

We are producing hydraulic and pneumatic components and systems for agricultural machinery

**COMPLETE HYDRAULIC
POWER STEERING
SYSTEM**

**TRAILER AIR BRAKE
SYSTEM**

We produce reliable products for all agricultural machines: hydraulic pumps, motors, control units, power steering, cylinders, braking devices, air compressors, control and command valves, brake cylinders

PLA-MET

Pla-Met is a company founded in 1982 in Zrenjanin, Serbia, as a family-owned company for making plastic parts.

In 1995, Pla-Met starts producing the parts for seeders, and in 2008 it started the production of its own mechanical seeders for grain BANAT, sizes 1.8m, 2.4m, 3.0m and 4.2m, and BEGEJ pneumatic seed drills from 2 to 6 rows .

In 2015, Pla-Met introduced the standards ISO9001, ISO14001 and OHSAS 18001 by the G-Certificate. In 2016, the assessment of the risk of using seeders (CE and 3A mark) was carried out by AN-LAB Co d.o.o.

Pla-Met also produces steel wheels for agricultural machinery of the size from 6 “to 16”, with sheet thickness from 2mm to 5mm.

Over the years, Pla-Met has won 11 golden and 2 silver medals, as well as the golden cup for its quality products at the largest agricultural fair in Serbia.

RELIABLE PARTNER

Chamber of Commerce and Industry of Serbia is an independent, modern and responsible non-budgetary institution, a national association of all Serbian businesspeople, which serves the best interests of its members and the Serbian economy, owing to its tradition, experience and knowledge.

Our key commitment is to make Serbia visible as a market economy country, with investment opportunities, open borders, and ready to join the European trends in a competitive way.

A 160-year tradition of the Serbian chamber system and the developed chamber network, Representative Offices abroad, are the guarantor of efficient implementation of the support mechanisms for the economy and businesspeople in their activities.

We have been and will remain your responsible partner and support to your business through:

- Representing interests of our members before the governmental bodies and institutions
- Exercising public powers by issuing various documents
- Upgrading international economic cooperation
- Promoting the economy in the country and abroad
- Disseminating business information to our members
- Consultancy services
- Business education
- Fostering good business practice and business ethics
- Work of Courts and Arbitration hosted by CCIS
